Access Code: 658-939-213

Please note that this is not a toll-free number, individual calling charges may apply.

****Please mute your phone upon joining the call to avoid interference with the team's discussion**.**

Agenda

- Framework Adjustment 55
 - Discuss draft alternatives for specifications, changes to the groundfish monitoring program, and other measures
 - Discuss draft impacts analysis
- Other business, as necessary

The New England Fishery Management Council generally posts announcements of Plan Develop Team (PDT) meetings on the Council's website, occasionally with very little notice. An agenda may or may not be included. Team members may discuss topics, if listed, in any order or add other issues not contained in the meeting notice.

Members of the public may attend PDT meetings, or listen in if the meetings are broadcast, but should not expect to participate unless the PDT chair invites input. Public comments and questions will not be taken during PDT conference calls.

PDTs are responsible to the Council and work on technical analyses as directed by their oversight committee. Once complete, PDT work products are reviewed at oversight committee meetings to which the public is invited. It is at this point that comments are encouraged on a range of issues, including PDT reports and recommendations, proposed management options or other information that is relevant to the committee's business at that time. The committee, in turn, makes management recommendations to the full Council based on the full suite of information it has available to it.
