Scallop Plan Development Team (PDT) Webinar

Date: Tuesday, November 29, 2022

Time: 9:00 a.m.

Agenda:

The Scallop Plan Development Team will meet to review:

- Framework 36: Recap bycatch estimates for FY2023 and discuss measures that could be used to reduce bycatch of northern windowpane flounder; consider range of alternatives in FW36 and review additional impact analyses.
- Other business may be discussed.

Online access:

This meeting will be broadcast online via GoToMeeting. Click the following link to join:

<https://meet.goto.com/401951245>. After joining the meeting, you can choose to use your computer audio or your phone to hear and speak.

Call In information:

Phone +1 (646) 749-3122 / Access Code: 401-951-245

*Please note that this is not a toll-free number. Phone-only attendees are NOT muted by default when joining. Please be sure to mute your phone upon joining the call so that there will be no interference with the discussion.

The New England Fishery Management Council generally posts announcements of Plan Develop Team (PDT) meetings on the Council's website, occasionally with very little notice. An agenda may or may not be included. Team members may discuss topics, if listed, in any order or add other issues not contained in the meeting notice.

Members of the public may attend PDT meetings, or listen in if the meetings are broadcast, but should not expect to participate unless the PDT chair invites input. Public comments and questions will not be taken during PDT conference calls.

PDTs are responsible to the Council and work on technical analyses as directed by their oversight committee. Once complete, PDT work products are reviewed at oversight committee meetings to which the public is invited. It is at this point that comments are encouraged on a range of issues, including PDT reports and recommendations, proposed management options or other information that is relevant to the committee's business at that time. The committee, in turn, makes management recommendations to the full Council based on the full suite of information it has available to it.
