

DRAFT Amendment 23 Review Metrics Discussion Paper

Groundfish Plan Development Team

May XX, 2022

Intentionally Blank

Overview

[Overview of the A23 coverage review alternative (4.1.4.2 Establish a Review Process for Monitoring Coverage Rates) and the monitoring exclusions review alternative (4.6.4.2 Review Process for Vessels Removed from Commercial Groundfish Monitoring Program Requirements) and Council tasking for the PDT to develop the review metrics.]

1. Background

[A23 and monitoring reference documents, glossary of terms, goals and objectives of A23, goals and objectives of the groundfish monitoring program]

Important Reference Documents

Glossary of Terms

Goals and Objectives of Amendment 23

Goals and Objectives of Groundfish Monitoring Program

2. Objectives of the Review

[Objectives for the review identified from the A23 review alternative and rationale]

3. Summary of Groundfish Fishery Conditions

[Summary of fishery/market conditions pre- and post- Amendment 23 – including information from FW63 AE (trends in landings, revenue, ACE leasing prices), input from advisors on market condition observations]

4. Possible Review Metrics and Indicators

[List of possible review metrics and indicators – to be refined during course of this work. Include description of what each metric/indicator would measure, what information would be needed to evaluate, caveats or considerations to note, identify which parties will be responsible for and involved with reporting on the various metrics (PDT and broader support)]
