

## Common NPDES Requirements, BMPS, and/or Performance Standards

- Quality Assurance Plans or Standard Operating Procedures
- Operations and Maintenance Plan
- Containment Management System Plan
- Feed Management Plan
- Materials Storage Plan
- Maintenance Plan
- Training Plan
- Waste collection/disposal Plan
- Transport/harvest discharge Plan

## Common NPDES Reporting Requirements

- Drug/chemical use reporting
- Escapement
- Production
- Stocking (source, quantities, sizes)
- Discharge Monitoring Report
- Protected species interactions

**Recordkeeping – maintain records for 3 years**

## Typical NPDES Monitoring Parameters

- Nutrients
- Solids
- DO
- pH and temperature
- Drugs and chemicals
- Metals
- Sediment Samples
- Benthic Assessments
- Video and/or photo surveys

**Other parameters can be added as a result of agency consultations and public input**

## Typical NPDES Compliance Parameters

- Discharge Monitoring Report review
- Limit violations, frequency, etc.
- Inspections
- Compliance with all permit conditions
- Effluent limits and monitoring
- BMP Plan contents
- Proper reporting
- Records
