Background

Preliminary or draft timelines may be provided for actions for which Action Plans have not been formally approved; however, they will be revised as needed when Actions Plans are available. The Council, together with GARFO and the NEFSC, will develop action plans for all regulatory actions as soon as practicable.

Timelines are provided for actions until they have been approved or disproved by NMFS. They are updated only after review by the Executive Committee or at the direction of the Council Chair between Executive Committee meetings or as part of the process for updating action plans.
