## Fishery Management Plan Process

Council approves specific actions on management issues during its annual priority-setting process. Directs oversight committee to develop a management strategy, goals and objectives, and timelines.

Oversight committees respond to Council directives. Advisory Panels work with their committees to develop alternatives to be considered during plan development.

## Council

At committee direction, plan teams provide technical background information and analyses of alternatives. O/S Committee

Plan Dev. Team Advisory Panel

SSC

Council receives updates from committees during the development of all management actions and also provides guidance as needed.

Council\*

SSC recommends ABC to Council. Plan teams perform the ABC-setting analyses.

## FMP Process - continued
