Subject: STREAMLINE SMALL-MESH MULTI-SPECIES REGULATIONS

TO NEFMC. COUNCIL ,

ANY FISHING VESSEL USING 3 INCH
MESH OR SMALLER MESH SHOULD BE REQUIRED TO USE NO MORE THAN 35
FATHOMS WIRE AFTER THEIR DOORS TO THEIR NET
,DOING THIS WOULD REDUCE 15% TO 20% OF BY-CATCH !!

I KNOW NEFMC MEMBERS ARE GOOD WITH NUMBERS , SO TO PROVE MY STATEMENT
JUST RUN THE NUMBERS USING 100 FATHOMS OR MORE AFTER THEIR DOORS TO
THEIR NETS .AS MOST FISHING VESSELS USE TODAY
.I BELIEVE SMALL MESH FISHING NEEDS WIRE RESTRICTIONS !!
