

NLS-S-Deep Boundary

October 1, 2019

DRAFT – For discussion purposes only

Modifications to the NLS-S SAMS areas. The NLS-S-deep boundary would be roughly defined using as the dark blue area. The area outside of the dark blue area would be the South Shallow. The southern boundary of the NLS-S-deep area would be expanded.

Rationale: ...Expanding the NLS-S-deep area allows vessels more space to operate when fishing in the area.
