

MREP Northeast

Fishery Science 100—January 13-15, 2015, Crowne Plaza, Warwick, RI
Fishery Management 100—March 10-12, 2015, Crowne Plaza, Warwick, RI

If you are someone who cares about healthy fisheries then the Marine Resource Education Program (MREP) is for you. Organized by members of the fishing community, MREP brings together fishermen, scientists, managers, and other marine resource professionals to share expertise essential to understanding fishery management in the 21st century. The curriculum is focused on the data collection programs and management systems unique to the Greater Atlantic Region, and prepares participants to be effective contributors to science and management. Nearly 600 Mid-Atlantic and New England fishermen have attended MREP workshops.

Selected fishermen will be notified by phone and mail. Meals and accommodations are provided during the workshop, and travel support is also available to qualifying active fishermen.

For questions about the program please call,
Mary Beth Nickell-Tooley at (207) 837-3537, Libby Etrie at (978) 491-1848, or
John Williamson at (207) 939-7055

To register for the program please contact Patty Collins at (207) 228-1625,
for online registration scan the QR code or goto: www.gmri.org/MREP-NEapply
